Subject: POIB HENDON report - FREEDOM CONVOY 2022 22/01/2022
Date: 20-Jan-22 4:17:00 PM
Attachments: 2022-01-20 - POIB - PROJECT HENDON - PROTEST CONVOY.pdf

Hello Everyone

As per our discussions yesterday related to the truck slowdowns/protest and the potential public safety impacts, please find POIB's first strategic intelligence report. This report is generated under Project HENDON as it pertains to POIB's mandate for potential acts of criminal extremism that pose threats to public safety or economic security – in Ontario and nationally.

I should note that this report was a difficult one for our analysts to complete comprehensively – *there is not a master plan conceived by a single entity to disrupt traffic and impede government operations. This event is best seen as an aggregate of the intentions and actions of a wide array of individuals with multiple motivations – united by frustration and opposition to government policy. Their actions, and the evolution of their loosely formulated plans, will be varied in different locales.*

A tactical intelligence product is also being completed and will be sent to CIC Varga for further distribution. POIB will be hosting a call with all HENDON partners tomorrow at 1100 hrs to discuss the situation in POJs and enhance information collection and intelligence production. A further report will be disseminated tomorrow.

Thank-you
Pat
